

K2 Win the Queen's Award for Enterprise

May 2008.

K2 Medical Systems were very proud to be granted the Queen's Award for Enterprise in the category of Innovation for our contributions to improving maternity services.

This is the most prestigious innovation award that can be bestowed on a UK company and reflects the tremendous efforts made by all those who have contributed to our success over the years; Researchers at the Plymouth Perinatal Research Group (K2's origin), University of Plymouth and Plymouth Hospital's NHS Trust who gave us the opportunity to start the Company, the local Plymouth institutions who supported us and of course our employees who breathed life into the vision. We would also like to acknowledge our customers and in particular those influential individuals who recognised the potential of what we were doing and backed us in their own hospitals. We enjoy a terrific relationship with our customers not least because we are all motivated by the same ambition, to improve maternity care.

We were presented with the award at K2 offices by Her Majesty's Lord-Lieutenant of Devon, Mr Eric Dancer CBE JP. The presentation was also attended by The High Sheriff of Devon, Mr Anthony Mildmay-White and Lord Mayor and Lady Mayoress of Plymouth, Cllr David James and Mrs Diane James. We are most grateful for their great support and interest in our company.

We were also honoured to attend a reception given by the Queen and the Duke of Edinburgh at Buckingham Palace. Also in attendance was the Duke of York, The Princess Royal, The Duke of Gloucester, The Duke of Kent and Princess Alexandra.

From the Palace it was off to the Ritz for a Champagne cocktail and then on to Gordon Ramsey's at Claridges. A great day!
