## K2 Medical Systems Keyboard Accessory Solution

The K2 Medical Systems' Keyboard Accessory Kit comprises a medical grade keyboard/trackpad device and mounting kit. The mounting hardware kit allows the keyboard to attach directly to the K2MS Portal® device for superior ergonomics.

### Keyboard Specification

- Combined keyboard and trackpad/mouse functionality, designed for medical applications.
- Sealed, IP68 waterproof wipe clean design compatible with common disinfectant methods.
- A light keyboard action, suitable to touch-typists, with 2.5mm ±0.5mm key travel and 10 million rated stroke life.
- Backlit with user control of illumination intensity, UK, QWERTY layout.

### Mounting Hardware

The Keyboard Accessory Solution kit contains everything needed to mount the keyboard directly onto the K2MS Portal® device. The mounting hardware is available in P2 and P3 options. The solution includes provision for cable routing ensuring reliable service life.

### Ordering Information

Part Number	Description	Use notes or restrictions
050-711	P3 Keyboard Accessory Solution (Generation 2)	Includes mounting hardware bracket and keyboard. Standard P3 use, P3 serial numbers Cxxx0191 and higher
